8ème Ciel

8ème Ciel, high quality essential underwear.

8ème Ciel is a must-have range in classic colors. Our team, based in France and India, is **multicultural**. It constantly innovates to create comfortable clothing that adapts to the morphology of each, with elegance.

Made from the best Indian cottons by our partner, Lux Industries, our underwear brings ultimate comfort. 100% cotton or 95% cotton and 5% elastane, our products follow the movements and are nice to wear since we only use **pure raw material.**

Our standards (REACH but also GOTS for the respect of the environment) are high and permanently verified by international organizations (including Intertek)

Our industrial partner, Lux Industries, was founded in 1957. Over the 20 following years, the company has **grown by 100 times its size thanks** to a series of innovations in marketing and manufacturing.

For more than 60 years we have mastered the creation, weaving and cutting of our underwear. We are now developing on a range including also t-shirts, polos, leggings and jeggings, just like socks.

We know we can count on our industrial partner, likewise he knows he can count on 8ème Ciel to better **understand the international markets** and better **anticipate their evolutions**.
